

Finlog[®] 

LOG HOMES FROM FINLAND

GARDEN STUDIOS HOME SPAS

Quality comes
as standard

WELCOME TO FINLOG

Please browse through our standard designs or Finlog can design a garden room just for you.

Did you know, 98% of the log buildings Finlog supply are designed totally by the client. That's what we do best – supplying the very best quality garden buildings to your requirements – just supply us with a dimensional sketch and we will provide you with costs for your project.

Did you also know Finlog manufacture log homes, mobile homes, swimming pool houses – in fact any building made from logs!!

Welcome to the Finlog Garden Studios/Home Office brochure. The designs on the following pages are examples of the different types of buildings we can build for you. If you would like to design a space just for you, bespoke cabins are our speciality.

All our buildings are built to the highest possible standard with the best quality timber from Northern Finland and Russia at our own factory on the Finnish/Russian border. So you get direct from the factory prices.

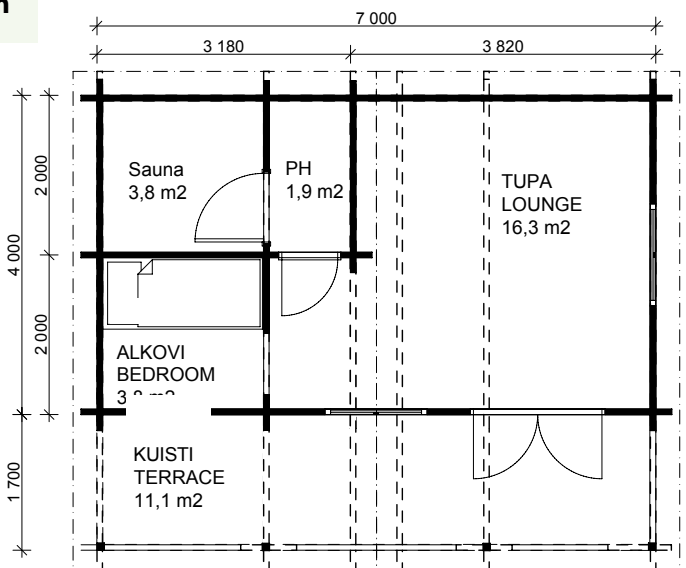

Finlog garden studios can be built in round or flat log, thicknesses start from 70mm and go up to 260mm. All Finlog buildings are built using our own fully trained teams. By using only the best timber means Finlog can offer a renewable guarantee (subject to contract).
