All buildings exceed BS3632, prices are subject to a free site visit. These costs include construction, log treatment, painting internally and externally. All logs used are close grained pine and spruce.

All buildings are made in our factory in Finland and built on site by Finlog trained Log builders. All the below Log sizes are available, Log size above 88 mm may need mechanical lifting equipment. Prices are subject to exchange rate fluctuations. VAT may be applicable at 5% with certain planning conditions. Cost excludes crew accommodation if needed depending on location, scaffold, offloading equipment, site services and presumes safe site conditions.
